

A man in tactical gear, including a light blue polo shirt, dark cargo pants, a black belt, sunglasses, and a watch, stands next to a white pickup truck. He is holding a large olive green duffel bag. The truck's bed is filled with more gear bags. The background is a dark, wooded area.

ARAMID vs NOMEX®

WHAT'S THE DIFFERENCE?

Nomex® is Aramid. More specifically, Nomex® is the branded name of meta-aramid products made by DuPont. A Nomex® flight suit and an Aramid flight suit have the same **flame resistance** and **durability**, and both are **sewn to the same military specification**.

THE KEY DIFFERENCE ▶ Nomex® suits are NIR compliant
